Ramp for 2 Drum and Larger Accumulation Center, EcoPolyBlend™, Black - 28687

Product Images

Short Description

- Specially designed for loading and unloading drumson EcoPolyBlend™ accumulation centers
- Anti-skid ribs provide maximum safety for moving drums
- Load bearing capacity of 1000 lb (454 kg)

- Made from 100% recycled polyethylene

Description

The Justrite Ramp for 2 Drum and larger EcoPolyBlend™ Accumulation Centers (black - model 28687) allows you to load and unload heavy drums onto the centers with ease. Place the ramp anywhere on 2-drum or larger accumulation centers size to help make everyday material handling easier and safer.

Each ramp measures 48 in W x 33 in D x 6.25 in H (1219 mm x 838 mm x 159 mm), with a net weight of 41.0 lb (18.6 kg) and a safe allowable uniform distributed load of 1000 lb (454 kg) based on a service temperature range of -30°F to 120°F (-39°C to 49°C).

Why do you need it??

Using accumulation centers is important to mitigate leakage and spillage from drums — but if you are unable to easily load drums on them, it can result in unnecessary spillage. Justrite ramps have anti-skid ribs that allow for easy access to move drums on and off accumulation centers, making them an ideal addition to improve health and safety in the workplace on several levels. Easing the level of difficulty lowers the risk involved with moving drums, especially those filled with hazardous liquids, and tangibly improves your entire spill containment system.

Specifications

Model No	28687
UPC	697841051324
International Model No.	28687
Brand	Justrite
Pallet Quantity	10
Color	Black
Material Specifications	Recycled Polyethylene
UL Environmental Approval	Yes
Percent Recycled	100
Load Bearing Capacity, lbs	1000
Load Bearing Capacity, kg	454
Dimensions, Exterior	6.25" H x 48" W x 33" D
Dimensions, Exterior	159mm H x 1219mm W x 838mm D
Net Weight, lbs	40.0
Net Weight, kg	18.1
